Recognizing members is essential for sustaining a healthy and happy community. On March 17, 2026, the EVR Board of Directors will host its annual Membership Appreciation Dinner and Dance.

This year's theme, thanks to Lynn Palas, will be a St. Patrick's Day theme – everyone is Irish on St. Patrick's Day! Wear your green, dress up, however you want to celebrate! Doors will open at 4:30 p.m. Dinner will be served at 5:00 p.m. Burnin' Ember will play from 6:00 p.m. until 9:00 p.m. Will you have the luck of the Irish and win a prize?

Please sign up on sign up sheets posted across from the office. Hope you can join us!

Raise your glass and have no fear,  
It's time to spread some Irish cheer!  
A pint of stout, a dance or two,  
May luck and laughter follow you!

Jen

Texas law states all fruit must be removed from trees and picked up off the ground by April 1st, 2025. On April 2nd the park will be checking front, back, and side yards for any violations. A 7 day notice will be issued and after that date if not corrected a fine will be issued.

The Mexican fruit fly is native to southern and central Mexico. Each year, the pest enters the Lower Rio Grande Valley's 27,000 acres of commercial citrus crops from south of the border and attacks more than 40 different kinds of fruits. Damage occurs when the female fly lays eggs in the fruit, which then hatch into larvae, making the fruit unmarketable.

La ley de Texas es que todas las frutas deben eliminarse de los árboles y recogerse del suelo antes del 1 de abril de 2025.

El 2 de abril, el parque revisará los patios delanteros, traseros y laterales para detectar cualquier violación. Se emitirá un aviso de 7 días y después de esa fecha, si no se corrige, se emitirá una multa.

La mosca mexicana de la fruta es originaria del sur y centro de México. Cada año, la plaga ingresa a los 27,000 acres de cultivos comerciales de cítricos del Valle del Río Grande desde el sur de

la frontera y ataca a más de 40 diferentes
